DETAILED ACTION

Election/Restrictions

1. The examiner acknowledges the election of Species A in the reply filed 11/7/2005. Upon reconsideration and examination of the elected species the examiner has decided to withdraw the election of species. The following action covers all pending claims.

Specification

2. The disclosure is objected to because of the following informalities: on page 1 of the specification, the status of the parent application should be updated.

Appropriate correction is required.

Drawings

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: on pages 23-24, reference numbers 44 and 46 are not shown in Figure 5 although they are mentioned in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

Art Unit: 1712

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

4. Claims 1-79 are allowed.
5. The closest prior art is Beckley et al. (U.S. Patent No. 5,552,466) cited in the Information Disclosure Statement of 10/9/03 is the closest prior art. Although Beckley teaches the production of heat resistant composites that include silicones, Beckley teaches that decomposition of the organic components of the composite occurs during thermal shock of these temperatures. This is contrary to applicant's requirement that no melting or decomposition of the composition takes place.
6. Decker et al. US 2004/0241443 A1 is cited for general interest.

Conclusion

7. This application is in condition for allowance except for the following formal matters: see the objections to the specification and drawings set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

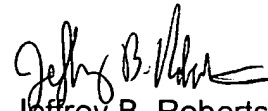

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
